

MALAGO

Free Dash Cam Offer

At Malago we believe in doing things a little differently. Yes, we have a track record of saving businesses money for their fleet insurance – but the real trick to reducing motor fleet premiums is reducing claims costs. That's why we are helping fleet operators by offering a free dash cam with every fleet policy taken out*.

Dash Cams provide valuable footage in the event of an accident which can help prove innocence, and defend against fraudulent claims, thus reduce claims costs.

Let's take a look at the camera on offer – it's a nifty piece of kit:

The Nextbase 312GW Dash Cam records in Full 1080p High Definition. It features Wi-Fi which allows you to quickly review footage on a mobile device and directly share it with your insurer, friends or social media via the Nextbase App. This model also features GPS for location logging and includes the unique Nextbase Click & Go powered mount – for ultimate convenience.

How to get a free Nextbase 312 GW dash cam**:

Simply take out a fleet policy covering 5 or more vehicles with Malago between 1/11/16 and 31/12/2017

Not due for renewal yet?

Email us with your renewal date and contact details and we will enter you into a prize draw. All emails with a renewal date in 2017 and a reference to 'Dash Cam Prize Draw' will be entered into the draw. The winner to be chosen at random on 31/3/17.

*Applies to Fleets of 5 or more vehicles

**In the event of stock unavailability we will provide the nearest model equivalent
