bout this book

rd Games with English is a series of 3 books of carefully graded language activities designed to stimulate learners to practise, activate and extend theirlish vocabulary.

dagogical Basis
Book 3, for intermediate students who have completed a beginners' course inlish, presupposes a vocabulary corresponding to Threshold level as designatedhe Council of Europe. It enriches and extends this basic general vocabulary, bling the learner to understand and express a wider variety of ideas.
The words have been taken from intermediate grades of the Cambridgelish Lexicon (R. Hindmarsh), based on 4 major frequency counts, and also the most widely-used English as a Foreign Language textbooks.
There are over 1,500 lexical items in this book, allowing the learner to meetriety of situations in an English-speaking context and providing a solid basis forher study up to examination level. The teacher will find it a useful andest way of presenting, revising and testing vocabulary.

resentation
The vocabulary concentrates on a wide variety of topics: health, politics,ure, consumer affairs, statistics, human relationships, crime and punishment etc.
The games develop an awareness of different language forms: prefixes andixes, prepositional phrases, plural-form nouns, phrasal verbs etc.
A cultural element is introduced: proverbs, comparisons, feast days, Americanlish etc.
There is a built-in revision and recycling of certain lexical items in differentntexts.
The book is suitable for all ages, for teaching and testing, for class and groupirk and for varied further exploitation.
There is a full answer key and word list, enabling the book to be used forstudy and revision.
How to use this book

You will find many different types of word games in the book, including crosswords, opposites, synonyms and word squares; and you will be asked to do different things, such as match words and pictures, choose the correct word, and fill in blanks. Before each game read the instructions carefully. An example is normally given to show you what to do.

Write your answers on a piece of paper (or in the book, if there is room). You will find all the answers at the back of the book, starting on page 47, so you can check what you have done.

At the end of the book there is also a Word List with all the words used in the games. This is intended to give you ideas and to guide you towards the correct solution. Refer to this if you are in doubt, before you look at the answers.
